#### **Independent Auditor's Report**

City Council City of Lamesa, Texas Lamesa, Texas

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of City of Lamesa, Texas (the City), as of and for the fiscal year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Lamesa, Texas, as of September 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, the schedule of changes in the plan's net pension asset/liability and related ratios for the retirement plans, and schedule of employer contributions for the retirement plans, and budgetary comparison information on pages 48, 49, 51, 52, and 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining statements, supplementary financial data schedules, and proprietary fund segment reporting schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the additional schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report April 9, 2019, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2018

Net Change in Fund Balances - Total Governmental Funds	\$	416,322
Amounts reported for governmental activities in the Statement of Activities (SOA) are different because:		
Capital assets are not reported as expenses in the SOA.		293,977
The depreciation of capital assets used in governmental activities is not reported in the funds.		(468,985)
Certain property tax revenues are deferred in the funds. This is the change in these amounts this year.		61,558
Repayment of debt principal is an expenditure in the funds but is not an expense in the SOA.		132,990
Proceeds from issuance of capital leases are not recorded as other financing sources in the statement of activities.		(75,221)
The net revenue or expense of internal service funds in reported with governmental activities.		204,360
Pension Expense is not accrued in the funds related to the Net Pension Liability, Deferred Outflow, and Deferred Inflows - TMRS.		4,944
Pension Expense is not accrued in the funds related to the Net Pension Liability, Deferred Outflow, and Deferred Inflows - TESRS.		4,889
Compensated absences are reported as the amount earned in the SOA but as the amount paid in the funds.	_	7,809
Change in Net Position of Governmental Activities - Statement of Activities	\$	582,643

#### Non-Cash Financing Activities:

The City received a capital lease in the amount of \$215,526 for the Solid Waste Fund to purchase a refuse truck with sideloader.

#### -13-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

#### A. Summary of Significant Accounting Policies

The City of Lamesa, Texas' (the City) financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the City are discussed below.

#### 1. Reporting Entity

The City is a municipal corporation governed by a Council - City Manager form of government. The City, incorporated in 1917. The City provides a range of services, including tourism, police and fire protection, maintenance of streets and other infrastructure, and recreational activities. The City also provides utilities for water, sewer, and solid waste, as well as, operating the municipal golf course and providing housing assistance to local residents.

The City is empowered to levy a property tax on both real and personal properties located within its boundaries. It also is empowered by state statute to extend its corporate limits by annexation, which occurs when deemed appropriate by the City Council. The City Council (the Council) is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the City is a financial reporting entity as defined by the GASB in its Statement No. 61, *The Financial Reporting Entity*.

GASB Statement No. 61 identifies criteria for determining if other entities are potential component units that should be reported within the City's basic financial statements. The application of these criteria provides for identification of any entities for which the City is financially accountable and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's basic financial statements to be misleading. Based on the application of these criteria, two component units, Lamesa Economic Development Corporation (LEDC) and Lamesa Economic Alliance Project (LEAP), are included within the reporting City. The City is financially accountable for the Corporation, establishes the sales tax that is the principal source of revenue for the Corporation, and appoints the Board of Directors. This component unit has been discretely presented in the accompanying financial statements. Complete financial statements for the component units can be obtained from their office at 123 Main Avenue, Lamesa, Texas 79331.

#### 2. Basis of Presentation, Basis of Accounting

#### a. Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activities of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

#### -14-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The City does not allocate indirect expenses in the statement of activities.

Program revenues include: (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: the fund financial statements provide information about the City's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The City reports the following major governmental funds:

General Fund: This is the City's primary operating fund. It accounts for all financial resources of the City except those required to be accounted for in another fund.

The City also reports nonmajor governmental fund types:

Special Revenue: The City accounts for funds received or charged that are restricted by third parties in these accounts.

The City reports the following major enterprise funds:

Water and Wastewater Fund: This fund accounts for the revenues and expenses associated with providing water and sewer service to the citizens of the City.

Solid Waste Fund: This fund accounts for the revenues and expenses associated with providing solid waste service to the citizens of the City.

Municipal Golf Course: This fund accounts for the revenues and expenses associated operating the municipal golf course as a service to the citizens of the City.

Housing Program: This fund accounts for the revenues and expenses associated with the City operated housing assistance program.

#### -15-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

Additionally, the City reports an Internal Service Fund which is used to account for workers compensation insurance, property insurance, and self-funded health insurance provided to the departments of the city.

#### **Fund Balances**

The City reports fund balances under GASB Statement No. 54, which redefined how fund balances of the governmental funds are presented in the financial statements. Fund balances are classified as follows:

Non-spendable fund balance—includes the portion of net resources that cannot be spent because of their form (i.e. inventory, long-term loans, or prepaids) or because they must remain in-tact such as the principal of an endowment.

Restricted fund balance—includes the portion of net resources on which limitations are imposed by creditors, grantors, contributors, or by laws or regulations of other governments (i.e. externally imposed limitations). Amounts can be spent only for the specific purposes stipulated by external resource providers or as allowed by law through constitutional provisions or enabling legislation. Examples include grant awards and bond proceeds.

Committed fund balance—includes the portion of net resources upon which the City Council has imposed limitations on use. These are amounts that can be used only for the specific purposes determined by a *formal action* of the City Council. Commitments may be changed or lifted only by the Council taking the same *formal action* that originally imposed the constraint. The *formal action* must be approved before the end of the fiscal year in which the commitment will be reflected on the financial statements.

Assigned fund balance—includes the portion of net resources for which an intended use has been established by the City Council or the City Official authorized to do so by the City Council. Assignments of fund balances are much less formal than commitments and do not require formal action for their imposition or removal. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed which indicates that resources are, at a minimum, intended to be used for the purpose of that fund.

Unassigned fund balance—includes the amounts in the general fund in excess of what can properly be classified in one of the other four categories of fund balance. It is the residual classification of the general fund and includes all amounts not contained in other classifications. Unassigned amounts are technically available for any purpose. Negative residual amounts for all other governmental funds are reported in this classification.

#### **Fund Balance Policy**

Committed Fund Balance—The City Council is the City's highest level of decision-making authority and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Council at the City's Council meeting. The resolution must either be approved or rescinded, as applicable, prior to the last day of the fiscal year for which the commitment is made. The amount subject to the constraint may be determined in the subsequent period (i.e. the Council may approve the calculation or formula for determining the amount to be committed).

#### -16-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

Assigned Fund Balance—The City Council authorizes the City Manager as the City Official responsible for the assignment of fund balance to a specific purpose as approved by this fund balance policy.

#### **Order of Expenditure of Funds**

When multiple categories of fund balances are available for expenditure (for example, a construction project is being funded partly by a grant, funds set aside by the City Council, and unassigned fund balance), the City will first spend the most restricted funds before moving down to the next most restrictive category with available funds, but also reserves the right to deviate from this general strategy when appropriate.

#### b. Measurement Focus, Basis of Accounting

Government-wide and Proprietary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. Revenues from local sources consist primarily of property taxes, franchise taxes, and gross receipts taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### -17-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

#### 3. Financial Statement Amounts

#### a. Cash and Cash Equivalents

For purposes of the statement of cash flows, cash in bank, restricted cash, and certificates of deposit are considered to be cash equivalents.

Restricted Cash and Cash Equivalents consisted of funds restricted for closure and post closure obligations related to the City's landfill operations recorded in the Solid Waste Fund. As of September 30, 2018 the restricted balance was \$625,729.

#### b. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period.

Allowances for uncollectible tax receivables within the General Fund are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the City is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

#### c. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

#### d. Inventory - Supplies

Inventory is valued at the lower of FIFO cost (first in, first out) or market. Inventory in the Water and Wastewater Fund consists of supplies held for future use.

#### e. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

#### -18-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

	Estimated
Asset Classes	Useful Lives (Years)
Buildings	20-50
Improvements Other than Buildings	20
Machinery and Equipment	5-10
Infrastructure	20-50

#### f. Receivable Balances

Receivables as of year-end for the City's individual major funds and non-major, internal service, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

		Governmental Activities	Business-TypeActivities		 Total
Receivables:					 _
Customer Accounts	\$		\$	433,158	\$ 433,158
Unbilled Revenue				363,331	363,331
Property Taxes		292,536			292,536
Franchise Fees		78,921			78,921
Hotel Occupancy Taxes		94,831			94,831
Sales Tax		382,829			382,829
Paving Liens		629,900			629,900
Other		20,977	_		 20,977
Gross Receivables	\$	1,499,994	\$	796,489	\$ 2,296,483
Less: Allowance for Uncollectibles	_	(677,977)	_	(110,788)	 (788,765)
Net Total Receivables	\$	822,017	\$	685,701	\$ 1,507,718

#### g. Deferred Inflows of Resources Reported in the Governmental Funds

In addition to liabilities, the balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of fund balance that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and fines and fees. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. As of September 30, 2017, the City reported unavailable revenue from property taxes in the amount of \$117,034 and unavailable revenue in the amount of \$131,396 from municipal court receivables.

#### -19-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

#### h. Deferred Inflows and Outflows of Resources in the Statement of Net Position.

In addition to assets and liabilities, the statements of net position will sometimes report a separate sections for deferred inflows and outflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The amounts reported by the City in this section of the government-wide statement of net position all related to pension plans reported by the county, except for deferred charges on refunding as recognized by the City in prior periods. The deferred charge is related to a bond refunding on Canadian River Municipal Water Authority (CRMWA) and is being amortized to interest expense over the life of the new bond issuance. As of September 30, 2018 the City reported \$52,597 as unamortized deferred charges on refunding. For more information on the pension related deferred inflows and outflows of resources, see their respective notes.

#### i. Compensated Absences

Compensated absences (general leave) for the City includes both vacation and sick pay. General leave is based on an employee's length of employment and is earned ratably during the span of employment. Upon termination, employees are paid for any accrued general leave earned as set forth by personnel policy.

Vested or accumulated general leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated general leave that are not expected to be liquidated with expendable available financial resources are maintained separately and represents a reconciling item between the fund and government-wide presentations. Vested or accumulated general leave of proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees.

#### j. Revenues

Property taxes are billed and collected within the same period in which the taxes are levied. Subsidies and grants to proprietary funds, which finance either capital or current operations, are reported as non-operating revenue. The City also recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements related to grants, including time requirements, are met. The City records revenue earned but unbilled related to water and wastewater and solid waste utilities, this amount is reported as accounts receivable in the financial statements with the details disclosed in the notes. Resources transmitted before the eligibility requirements are met are reported as cash paid in advance by the provider and deferred inflows of resources by the City.

#### k. Expenditures

Expenditures are recognized when the related fund liability is incurred. In accordance with GASB 63 and 65, any loss on bond refunding is recognized as a deferred outflow of resources on the statement of net position and amortized over the life of the refunding bonds. In addition, bond issue costs are immediately expensed.

#### -20-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

#### I. Interfund Activity

Interfund activity results from loans, services provided, reimbursements, or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

Transfers and Interfund Payables and Receivables are used to move revenues from the fund that statute or budget requires to collect them to the fund that statue or budget requires to expend them and to move unrestricted revenue collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

#### m. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

#### n. Encumbrances

The City does not utilize an encumbrance accounting system. At year-end, the City reviews commitments to determine amounts encumbered. At September 30, 2018, there were no material commitments to be indicated by a reserve in the general fund balance.

#### B. Deposits and Investments

The City's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the City's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

#### 1. Cash and Cash Equivalents

At September 30, 2018, the carrying amount of the City's cash and cash equivalents (including restricted) was \$7,147,457. The balances includes cash in bank of \$3,285,687, \$503,399 invested in TexStar, \$2,732,642 invested in certificate of deposits, and \$625,729 of restricted certificates of deposit, with a bank balance of \$7,325,900. The City's cash and cash equivalents at September 30, 2018, and during the year then ended were entirely covered by FDIC insurance or by pledged collateral held by the City's agent bank in the City's name.

#### -21-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

#### 2. Investments

The City is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Public Funds Investment Act (the Act) requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports, and establishment of appropriate policies, the City adhered to the requirements of the Act. Additionally, investment practices of the City were in accordance with local policies.

#### 3. Analysis of Specific Deposit and Investment Risks

Standards require a determination as to whether the City was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

#### a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. At year end, the City's investments were not exposed to credit risk.

#### b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the City's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the City's name. At year end, the City was not exposed to custodial credit risk.

#### c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the City's only investments were certificates of deposit which were fully covered by pledge collateral at year end.

#### -22-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

#### d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

#### e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the City was not exposed to foreign currency risk.

#### C. Due to EDC's and Due from City

The City recorded a liability to the component units in the amount of \$127,610 for sales taxes not passed through as of September 30, 2018.

#### D. Water Rights and Related Debt with CRMWA

The City, along with several West Texas municipalities, entered into various contracts with the Canadian River Municipal Water Authority, to participate in the construction and maintenance of water gathering, holding, treatment, and transmission facilities. Under the agreements, CRMWA agreed to issue revenue bonds to finance construction and maintenance of the facilities and the City agreed to pay back their share of the total annual debt service requirements.

The following schedules comprise the debt outstanding related to the CRMWA contracts as September 30, 2018:

Water Facilities Debt	Balance 10/1/2017	Additions	_	Principal Payments	_	Balance 9/30/2018

#### **NOTES TO FINANCIAL STATEMENTS**

#### 2. Debt Service Requirements

Debt service requirements on notes payable as of September 30, 2018, are as follows:

	Governmental Activities									
Year Ending September 30,		Principal		Interest		Total				
2019	\$	57,765	5	1,403 \$		59,168				
			Busir	ness-Type Activi	ties					
Year Ending September 30,	_	Principal	_	Interest		Total				
2019	\$	588,235	\$	192,915	\$	781,150				
2020		348,002		182,273		530,275				
2021		91,000		174,909		265,909				
2022		94,000		170,978		264,978				
2023		98,000		166,898		264,898				
2024-2028		559,000		766,595		1,325,595				
2029-2033		687,000		634,715		1,321,715				
2034-2038		848,000		472,216		1,320,216				
2039-2043		1,045,000		271,768		1,316,768				
2044-2047		739,000		48,004		787,004				
Totals	\$	5,097,237	\$	3,081,271	\$	8,178,508				

#### 3. Capital Leases

The assets acquired through capital leases are as follows:

	 Governmental Activities	_	Business-Type Activities
Small Equipment	\$ 35,096	\$	1,589,064
Vehicles	75,221		
Heavy Equipment	94,676		1,029,000
Less: Accumulated Depreciation	 (30,711)	_	(451,850)
Totals	\$ 174,282	\$_	2,166,214

During the year ended September 30, 2018, capital lease assets accounted for \$306,614 of depreciation expense for governmental and business-type activities, respectively.

#### -29-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

Commitments under capitalized lease agreements for facilities and equipment provide for minimum future lease payments as of September 30, 2018, as follows:

	 Governmental Activities				
Year Ending September 30, 2018	Principal		Interest		Total
2019	\$ 44,450	\$	5,631	\$	50,081
2020	46,200		3,881		50,081
2021	40,256		2,040		42,296
2022	24,009	_	617		24,626
Total Minimum Rentals	\$ 154,915	\$	12,169	\$	167,084

		Business-Type Activities

#### G. Pension Plans

#### Texas Municipal Retirement System (TMRS)

#### **Plan Description**

The City participates as one of 883 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at <a href="https://www.tmrs.com">www.tmrs.com</a>.

All eligible employees of the city are required to participate in TMRS.

#### -30-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

#### **Benefits Provided**

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75.00% of the member's deposits and interest.

Currently the City has adopted the following provisions related to the pension plan:

	December 31, 2017
Employee Deposit Rate	7.00%
Matching Ratio (City to Employee)	1.5 to 1
Years Required for Vesting	5
Service Requirement Eligibility	
(Expressed as Age / Years of Service)	60/5,0/25
Updated Service Credit	100% Repeating, Transfers
Annuity Increase (to Retirees)	0% of CPI

#### **Employees Covered by Benefit Terms**

At the December 31, 2017 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	51
Inactive Employees Entitled to but not Yet Receiving Benefits	56
Active Employees	76
Total Plan Employees	183

#### Contributions

The contribution rates for employees in TMRS are either 5.00%, 6.00%, or 7.00% of employee gross earnings, and the city matching percentages are either 100.00%, 150.00%, or 200.00%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 7.00% of their annual gross earnings during the fiscal year. The required contribution rate for the City was 4.10% and 4.71% in calendar years 2017 and 2018, respectively. The City's contributions to TMRS for the year ended September 30, 2018, were \$151,708, and were equal to the required contributions.

#### -31-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

#### **Net Pension Liability**

The City's Net Pension Asset (NPA) was measured as of December 31, 2017, and the Total Pension Liability (TPL) used to calculate the NPA was determined by an actuarial valuation as of that date.

#### Actuarial Assumptions

Inflation 2.50% per year Overall Payroll Growth 2.40% per year

Investment Rate of Return 6.75%, net of pension plan investment expense, including inflation

Amortization Period 25 years

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

Actuarial assumptions used in the December 31, 2017, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period December 31, 2010 through December 31, 2014. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive).

#### -32-CITY OF LAMESA, TEXAS

#### **NOTES TO FINANCIAL STATEMENTS**

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Domestic Equity	17.50%	4.57%
International Equity	17.50%	6.35%
Core Fixed Income	10.00%	1.00%
Non-Core Fixed Income	20.00%	3.90%
Real Return	10.00%	3.80%
Real Estate	10.00%	4.50%
Absolute Return	10.00%	3.75%
Private Equity	5.00%	7.50%

#### **Discount Rate**

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

#### Changes in Net Pension Asset/Liability

		Total Pension Liability	Plan Fiduciary Net Position	 Net Pension (Liability)/Asset
Balance 12/31/2016	\$	15,097,619	\$ 14,962,861	\$ (134,758)
Service Cost		378,238		(378,238)
Interest (on the Total Pension Liability)		979,170		(979,170)
Changes in Proportionate Share		(339)		339
Difference Between Expected and Actual Experience	Э	(91,907)		91,907
Contributions - Employee			129,241	129,241
Contributions - Employer			220,642	220,642
Net Investment Income			2,034,774	2,034,774
Benefit Payments		(1,034,312)	(1,304,312)	
Administrative Expense		,	(10,558)	(10,558)
Other			(535)	 (535)
Balance 12/31/2017	\$	15,328,469	\$ 16,032,113	\$ 973,644

#### -33-CITY OF LAMESA, TEXAS

#### **NOTES TO FINANCIAL STATEMENTS**

#### Sensitivity of the Net Pension Asset/(Liability) to Changes in the Discount Rate

The following presents the net pension asset/(liability) of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension asset/(liability) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

 1% Decrease	Current Rate Assumption	 1% Increase
\$ (747,953) \$	973,644	\$ 2,416,950

#### **Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at <a href="https://www.tmrs.com">www.tmrs.com</a>.

#### Pension Expense, Deferred Outflows, and Deferred Inflows Related to Pensions

For the year ended September 30, 2018, the City recognized pension expense of \$193,949 and calculated as shown below:

Total Service Cost	\$ 378,238
Interest on the Total Pension Liability	979,170
Employee Contributions (Reduction of Expense)	(220,639)
Projected Earnings on Plan Investments (Reduction of Expense)	(992,240)
Administrative Expense	10,558
Other Changes in Fiduciary Net Position	535
Recognition of Current Year Outflow (Inflow) of Resources-Liabilities	7,520
Recognition of Current Year Outflow (Inflow) of Resources-Assets	 30,807
Total Pension Expense	\$ 193,949

At September 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Plan			Amortization
Deferred Outflows of Resources - Pension Plan	Year		Amount	Period
Employer Contribution Deferrals	2018	\$	114,017	1.000
Differences Between Projected and Actual Investment Earnings	2014		37,324	1.000
Differences Between Projected and Actual Investment Earnings	2015		405,237	2.000
Differences Between Projected and Actual Investment Earnings	2016		26	3.000
Differences Between Projected and Actual Investment Earnings	2017		(852,026)	4.000
Differences Between Expected and Actual Economic Experience	2015		(8,083)	0.120
Differences Between Expected and Actual Economic Experience	2016		(18,645)	1.600
Differences Between Expected and Actual Economic Experience	2017		(63,887)	2.280
Changes in Assumptions	2015	_	14,502	0.120
Total Deferred Outflows of Resources		\$_	(371,535)	

#### -34-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Plan		Amortization of
Year	<u>D</u>	eferred Outflows
2018	\$	107,704
2019		(45,392)
2020		(220,843)
2021		(213,004)
	\$	(371,535)

#### Texas Emergency Services Retirement System (TESRS)

The City participates in a cost-sharing multiple employer pension plan that has a special funding situation. The plan is administered by the Texas Emergency Services Retirement System (TESRS) and established and administered by the State of Texas (the "State") to provide pension benefits for emergency services personnel who serve without significant monetary remuneration. At August 31, 2017, there were 186 contributing fire and/or emergency services department members participating in TESRS. Eligible participants include volunteer emergency services personnel who are members in good standing of a member department.

On August 31, 2017, the pension system membership consisted of:

Inactive Employees or Beneficiaries Currently Receiving Benefits	3,104
Inactive Employees Entitled to but not Yet Receiving Benefits	2,208
Active Employees	4,046
Total Plan Employees	9,358

#### **Pension Plan Fiduciary Net Position**

Detailed information about TESRS's fiduciary net position is available in a separately-issued CAFR that includes financial statements and required supplementary information. TESRS issues a publicly available Annual Financial Report, which includes financial statements, notes, and required supplementary information, and can be obtained at <a href="https://www.tesrs.org">www.tesrs.org</a>. The separately issued actuarial valuations that may be of interest are also available at the same link.

#### **Benefits Provided**

Senate Bill 411, 65th Legislature, Regular Session (1977), created TESRS and established the applicable benefit provisions. The 79th Legislature, Regular Session (2005), re-codified the provisions and gave the TESRS Board of Trustees authority to establish vesting requirements, contribution levels, benefit formulas, and eligibility requirements by board rule. The benefit provisions include retirement benefits as well as death and disability benefits. Members are 50% vested after the tenth year of service, with the vesting percent increasing 10% for each of the next five years of service so that a member becomes 100% vested with 15 years of service.

#### -35-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

Upon reaching age 55, each vested member may retire and receive a monthly pension equal to his vested percentage multiplied by six times the governing body's average monthly contribution over the member's years of qualified service. For years of service in excess of 15 years, this monthly benefit is increased at the rate of 6.2% compounded annually. There is no provision for automatic post-retirement benefit increases.

On and off-duty death benefits and on-duty disability benefits are dependent on whether or not the member was engaged in the performance of duties at the time of death or disability. Death benefits include a lump sum amount or continuing monthly payments to a member's surviving spouse and dependent children.

#### **Funding Policy**

Contributions are made by governing bodies for the participating departments. No contributions are required from the individuals who are members of TESRS, nor are they allowed. The governing bodies of each participating department are required to make contributions for each month a member performs emergency services for a department (this minimum contribution is \$36 per member and the department may make a higher monthly contribution for its members). This is referred to as a Part One contribution, which is the legacy portion of the TESRS contribution that directly impacts future retiree annuities.

The State is required to contribute an amount necessary to make TESRS "actuarially sound" each year, which may not exceed one-third of the total of all contributions made by participating governing bodies in a particular year.

The Board rule defining contributions was amended effective July 27, 2014 to add the potential for actuarially determined Part Two contributions that would be required only if the expected future annual contributions from the State are not enough with the Part One contributions to provide an adequate contribution arrangement as determined by the most recent actuarial valuation. This Part Two portion, which is actuarially determined as a percentage of the Part One portion (not to exceed 15%), is to be actuarially adjusted near the end of each even-numbered calendar year based on the most recent actuarial valuation. Based on the actuarial valuation as of August 31, 2017, the Part Two contribution rate was changed to 2.0%, which will be established by a board rule in September 2017, since the second actuarial valuation report after adoption of the rules showed TESRS to not have adequate contribution arrangements if Part Two contributions were excluded.

Additional contributions may be made by governing bodies within two years of joining TESRS to grant up to ten years of credit for service per member. Prior service purchased must have occurred before the department began participation in TESRS.

A small subset of participating departments has a different contribution arrangement that is being phased out over time. In this arrangement, contributions made in addition to the monthly contributions for active members are made by local governing bodies on a pay-as-you-go basis for members who were pensioners when their respective departments merged into TESRS. There is no actuarial impact associated with this arrangement as the pay-as-you-go contributions made by these governing bodies are always equal to benefit payments paid by TESRS.

#### -36-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

#### Contributions

The contribution requirement per active emergency services personnel member per month is not actuarially determined. Rather, the minimum contribution provisions were set by Board rule, and there is no maximum contribution rate. For the fiscal year ending August 31, 2017, total contributions (dues, prior service, and interest on prior service financing) of \$51,000 were paid by the City. The State appropriated \$1,583,825 for the fiscal year ending August 31, 2017 to the plan as a whole.

#### **Actuarial Assumptions**

The total pension liability in the August 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.00% Salary Increases N/A

Investment Rate of Return 7.75%, net of pension plan investment expense, including inflation

Amortization Period 30 years

Actuarial Valuation Date August 31, 2016

Mortality rates were based on the RP-2000 Combined Healthy Lives Mortality Tables for males and for females projected to 2024 by Scale AA.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future net real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These components are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage (currently 4.97%) and by adding expected inflation (3.00%). In addition, the final 7.75% assumption was selected by "rounding down" and thereby reflects a reduction of 0.22% for adverse deviation.

The target allocation and expected arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Net Real Rate of Return
Equities:		
Large Cap Domestic	32.00%	5.72%
Small Cap Domestic	10.00%	5.96%
Developed International	21.00%	6.21%
Emerging Markets	6.00%	7.18%
Master Limited Partnership	5.00%	7.61%
Fixed Income:		
Domestic	21.00%	1.61%
International	5.00%	1.81%

#### -37-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

#### **Discount Rate**

The discount rate used to measure the TPL was 7.75%. The projection of cash flows used to determine the discount rate assumed that department and state contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

#### Changes in Net Pension Liability and Discount Rate Sensitivity Analysis

The following table shows changes in the net pension liability from August 31, 2016 to August 31, 2017:

	Total Pension Liability	-	Plan Fiduciary Net Position	,	Net Pension Liability
Balance 08/31/2016	\$ 1,235,926	\$	943,461	\$	(292,465)
Service Cost	16,802				(16,802)
Interest (on the Total Pension Liability)	99,836				(99,836)
Changes in Proportionate Share	61,199		49,185		(12,014)
Contributions by Participating Departments			51,000		51,000
Contributions by State			16,700		16,700
Net Investment Income			103,086		103,086
Benefit Payments	(53,062)		(53,062)		
Administrative Expense			(1,943)		(1,943)
Other	810	_	` '		(810)
Balance 08/31/2017	\$ 1,361,511	\$	1,108,427	\$	(253,084)

The following presents the net pension liability (NPL) of the City, calculated using the discount rate of 7.75%, as well as what the City's NPL would be if it were calculated using a discount rate that is one percentage point lower (6.75%) or one percentage point higher (8.75%) than the current rate:

 1% Decrease		Current Rate Assumption	1% Increase	
\$ 472,614	\$	253,084	\$	114,593

#### Pension Expense, Deferred Outflows, and Deferred Inflows Related to Pensions

At August 31, 2017, the City reported a liability of \$253,084 for its proportionate share of TESRS's NPL. The amount recognized by the City as its proportionate share of the NPL, the related State support, and the total portion of the NPL that was associated with the City were as follows:

City's Proportionate Share of the Collective Net Pension Liability	\$ 253,084
* State's Proportionate Share that is Associated with the City	60,771
	\$ 313,855

#### -38-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

\*Calculated using the City's proportionate share of contributions multiplied by the State's share of the collective net pension liability.

The TPL used to calculate the NPL was determined by an actuarial valuation as of August 31, 2016 rolled forward to August 31, 2017. GASB Statement No. 68 requires the NPL to be measure as of a date no earlier than the end of the employer's prior fiscal year. TESRS did not roll forward (nor did they provide the necessary information to for the participants to roll forward) the NPL to be measured as of date no earlier than the end of the employer's prior fiscal year. While the City acknowledges that the measurement date does not fall with in this 12 month period, the City elected to use conservatism and report the NPL measured as of August 31, 2017. The City used the assumption that any differences in the NPL measured as of August 31, 2017 versus September 30, 2018 would be immaterial. The employer's proportion of the NPL was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2016 to August 31, 2017.

At August 31, 2017, the employer's proportion of the collective NPL was 1.0041%, which was an increase of 0.0501% percent from its proportion measured as of August 31, 2016.

There were no changes of assumptions or other inputs that affected measurement of the TPL during the measurement period.

There were no changes of benefit terms that affected measurement of the TPL during the measurement period.

For the year ended August 31, 2017, the City recognized pension expense of \$53,064.

Total Service Cost	\$ 16,802
Interest on the Total Pension Liability	99,836
Projected Earnings on Plan Investments (Reduction of Expense)	(77,388)
Administrative Expense	1,943
Amortization of Deferred Outflows (Inflows):	
Differences Between Projected and Actual Investment Earnings	8,859
Differences Between Expected and Actual Economic Experience	168
Changes in Assumptions	 2,844
Total Pension Expense	\$ 53,064

At August 31, 2017, the City reported its proportionate share of the TESRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Outflows of Resources - Pension Plan	Defe	erred Outflows
Differences Between Projected and Actual Investment Earnings Differences Between Expected and Actual Economic Experience Changes in Assumptions	\$	23,601 270 3,697
Total Deferred Outflows of Resources	\$	27,568

#### -39-CITY OF LAMESA, TEXAS

#### NOTES TO FINANCIAL STATEMENTS

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Plan		ortization of
Year	Dete	rred Outflows
2018	\$	11,909
2019		21,846
2020		(1,048)
2021		(5,139)
	\$	27,568

#### H. Closure and Post Closure Care Cost

State and federal laws and regulations require the City to place a final cover on its Sanitary Landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the City reports a portion of these closure and post closure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date.

The \$548,302 reported as landfill closure and post closure care liability at September 30, 2018, represents the cumulative amount reported to date based on the use of 38.80% of the estimated capacity of the landfill. The City will recognize the remaining estimated cost of closure and post closure care of \$864,754 as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and post closure care at September 30, 2018. Actual costs in the future may be higher due to inflation, changes in technology, or changes in regulations. The City has restricted cash equivalents in the amount of \$625,729 to cover the landfill closure and post closure care liability at September 30, 2018.

#### I. Transfers and Internal Balances

Transfers for the year ended September 30, 2018 were as follows:

Transfers Out	Transfers In		Amount Transferred In/Out	Reason
Water and Wastewater Solid Waste General	General General Municipal Golf	\$ \$_	360,014 333,406 (38,174) 655,246	Administration Fees and Payments in Lieu of Taxes Administration Fees and Payments in Lieu of Taxes Operating Transfers

#### -40-CITY OF LAMESA, TEXAS

#### **NOTES TO FINANCIAL STATEMENTS**

Internal balances for the year ended September 30, 2018 were as follows:

Payable	Receivable	 Amount Payable/ Receivable	Reason	
Proprietary Funds Municipal Golf Course	General Internal Service	\$ 39,737 96,624	Unreimbursed year end accruals Short Term Loan for Renovations	
Municipal Golf Course	internal Service	\$ 136,361	Short Term Loan for Renovations	

#### J. Commitments, Contingencies, and Subsequent Events

#### 1. Contingencies

The City participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the City has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable may be impaired. In the opinion of the City, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

#### 2. Litigation

There is no pending litigation against the City as of September 30, 2018, that would have material effect on the financial statements.

#### 3. Subsequent Events

The City has evaluated subsequent events through April 9, 2019, the date which the financial statements were available to be issued.

#### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY DATA SEPTEMBER 30, 2018

#### **BUDGETARY DATA**

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- a. Prior to the beginning of the fiscal year, the City prepares a budget for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the Council is then called for the purpose of adopting the proposed budget. At least ten days public notice of the meeting must have been given.
- c. Prior to the start of the fiscal year, the budget is legally enacted through passage of a resolution by the Council.

Once a budget is approved, it can be amended only by approval of a majority of the members of the Council. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Council and are not made after fiscal year end. The legal level of control is at the function level. All budget appropriations lapse at year end.

The budget is presented on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).

Annual budgets were adopted for all governmental funds.

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### **Independent Auditor's Report**

City Council City of Lamesa, Texas Lamesa, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Lamesa, Texas, as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise City of Lamesa, Texas' basic financial statements and have issued our report thereon dated April 9, 2019.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered City of Lamesa, Texas' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Lamesa, Texas' internal control. Accordingly, we do not express an opinion on the effectiveness of City of Lamesa, Texas' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether City of Lamesa, Texas' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
